TERMS OF SERVICE — Bunsy

Operated by: QUICK AI SOFTWARE SOLUTIONS HUB - FZCO, a free zone company (FZCO) with limited liability, incorporated on 27 February 2026, Trade License No. 80532, Registration No. 78782, registered with the Dubai Integrated Economic Zones Authority (DIEZA), registered office at IFZA Business Park, DDP, Premises No. 80532-001, PO Box 342001, Dubai, United Arab Emirates, phone +971 54 583 6955 ("**Company**", "we", "us", "our").

Last updated: August 17, 2026 · **Effective date:** August 17, 2026 · **Version:** 1.4

PLEASE READ CAREFULLY. BY CREATING AN ACCOUNT, MAKING A PURCHASE, OR USING THE SERVICE, YOU AGREE TO THESE TERMS. IF YOU DO NOT AGREE, DO NOT USE THE SERVICE.

---

0. Plain-language summary

This summary is for convenience only and is not a substitute for the full Terms below. If there is any conflict, the full Terms control.

- Bunsy generates media (video, images, avatars, audio, music, text) using **third-party AI models**. We route your inputs to them; we don't control the models and can't guarantee a result.
- You must be **18+**. You keep rights in what you upload; you get the rights we can pass to you in what you generate, and you're responsible for how you use it.
- **Tokens ("credits")** are a limited-use digital entitlement, not money, and are generally non-refundable once spent. They do **not** expire when a billing period ends or a subscription is cancelled. Subscriptions auto-renew until you cancel.
- Uploading a **real person's face** requires you to be that person or to have their explicit consent. We store the photograph you upload and send it to an AI provider to build the avatar; **we do not collect biometric data, do not run face recognition, and do not create faceprints or face templates.**
- **Publishing is optional.** What you generate stays in your account unless you publish it. When you publish, you let us and other users display, interact with, and (where enabled) remix it inside Bunsy.
- **Don't** create deceptive deepfakes, sexual or NSFW content, anything involving minors (ever), or anything illegal — see our **Acceptable Use Policy**. We can remove content and suspend accounts.
- **We do not use your inputs or outputs to train AI models** except as narrowly described in Section 6A.

---

1. Acceptance and Scope

1.1. These Terms form a binding agreement between you ("you", "User") and the Company.

1.2. You accept these Terms by (a) creating an account; (b) using the Service as a guest where guest access is offered; (c) purchasing Tokens or a subscription; or (d) otherwise accessing or using the Service.

1.3. If you use the Service on behalf of an organization, you represent that you are authorized to bind it.

1.4. Your use is also governed by our **Privacy Policy** and our **Acceptable Use Policy** ("**AUP**"), each incorporated into these Terms by reference.

1.5. **Language.** The Service and these Terms may be presented in more than one language for convenience. **The English version of these Terms is the binding version** and prevails in case of any conflict with a translation.

1.6. **Platform terms.** Additional terms imposed by Apple, Google, a payment provider, or another distribution platform may apply to purchases made or use of the Service through that platform. Where a mandatory platform term conflicts with these Terms, the mandatory platform term prevails to the extent of the conflict.

---

2. Definitions

- **Service** — the Bunsy app, website, and all related features.
- **Input** — prompts, text, images, photographs, audio, or other materials you submit.
- **Output** — content generated by artificial intelligence in response to your Input.
- **User Content** — your Input together with associated Output.
- **Published Content** — User Content you choose to make available to other users through a public feature of the Service, such as the feed or your public profile.
- **Acceptable Use Policy (AUP)** — the rules on permitted and prohibited use published at `https://bunsy.io/acceptable-use`, which form part of these Terms.
- **Tokens** — internal, limited-use digital units used to access paid operations (shown in the App as "credits"). Tokens are not money, not electronic money, not stored value, and have no cash value.
- **Subscription** — a recurring paid plan including a periodic allocation of Tokens and/or features.
- **PAYG** — one-time purchase of Tokens outside a Subscription.
- **Third-Party Providers** — third-party AI model and infrastructure providers used to process Inputs and generate Outputs.
- **Facial Images** — photographs containing the face of a real person that you upload to create an avatar. We store the photograph itself and the images generated from it; we do not derive facial geometry, faceprints, biometric templates, or embeddings from it, and we do not use it to identify anyone. Because we do not carry out that processing, Facial Images are personal data but not biometric data (see Privacy Policy, Section 7).
- **Prohibited Content** — content described in Section 9.
- **Guest Account** — an anonymous, device-linked session that lets you use limited features without registering.

---

3. Eligibility and Account

3.1. **Age.** You must be at least **18 years old**. Where the age of majority in your jurisdiction is higher than 18 (for example, 21 in the UAE), you must have reached that age. By using the Service, you confirm you meet this requirement.

3.2. You must provide accurate account information and keep it current.

3.3. You are responsible for your account credentials and all activity under your account. Notify us at **info@quick-ai.solutions** of any unauthorized use.

3.4. **One account per User.** One User may maintain a single account unless we permit otherwise. Creating multiple accounts (including via multiple Guest Accounts or devices) to repeatedly obtain introductory Tokens, or to circumvent limits or a suspension, is prohibited. We may use device- and network-level signals to detect and prevent such abuse.

3.5. **Guest Accounts.** Where offered, Guest Accounts provide limited access without registration and are tied to your device. Guest data, Tokens, and content may be lost if you uninstall the App, switch devices, or clear app data, and may not be recoverable. You may be required to register to retain content or purchase Tokens. Anti-abuse limits in Section 3.4 apply to Guest Accounts.

3.6. **Account deletion.** You may request deletion of your account in the App (Settings → Delete account) or by contacting **info@quick-ai.solutions**. We may require reasonable verification or re-authentication first, to prevent accidental or unauthorized deletion. On deletion we delete or anonymize the account and the personal data associated with it — including stored projects, uploads, avatars, and Published Content — except information we must retain for legal, tax, accounting, fraud-prevention, dispute, security, or payment-record purposes. Retention periods and the deletion grace period are described in the Privacy Policy (Sections 7.4 and 10).

3.7. **Deletion does not cancel billing.** Deleting your account does not by itself cancel an active auto-renewing subscription billed by Apple or Google. You must cancel recurring billing separately through the applicable store (see Section 12.7).

---

4. Description of the Service

4.1. Bunsy is an AI media generation and social platform providing tools to create and interact with AI-generated content. Features may include (without limitation) generating video, images, avatars, audio, music, and text from prompts and uploaded media; timeline-based editing; templates and effects; downloading created content; publishing content to a social feed; a public profile; following creators; reactions, comments, and other interactions; and personalized recommendations. Available features are displayed in the App and may be added, modified, suspended, or removed at any time, including for product, security, legal, provider, or operational reasons.

4.2. The Service operates as an aggregator: your Inputs are routed to Third-Party Providers, which process them and return Outputs. The Company does not own or control the underlying AI models and does not guarantee any specific result.

4.3. The Service is provided on an "as is" and "as available" basis (see Sections 18–19).

4.4. **Beta and experimental features.** We may label features as "beta", "experimental", or "preview". Such features are provided for evaluation, may be unstable or withdrawn without notice, and are excluded from any service commitment.

4.5. **Private by default.** Content you generate or edit does not become public merely because you created it in Bunsy. It becomes visible to other users only when you choose to publish or share it using the controls the Service presents to you at the time (see Section 6.4).

5. Your Inputs and User Content

5.1. **Ownership.** As between you and the Company, you retain any pre-existing rights in your Input, subject to Section 5.2.

5.2. **License to us.** You grant the Company a non-exclusive, worldwide, royalty-free license to host, store, reproduce, transmit, modify (for technical purposes), and display your User Content solely as necessary to operate and provide the Service — including transmitting Inputs to Third-Party Providers — and for safety, moderation, debugging, and legal compliance. This license does **not** include any right to train AI models on your content except as expressly described in Section 6A.

5.3. **Your warranties.** You represent and warrant that you own or have all necessary rights and consents to submit your Input; that where your Input contains the face, likeness, voice, or personal data of any individual, you have that individual's explicit consent; and that your Input does not infringe any third-party right or violate any law.

5.4. You are solely responsible for the legality of all Inputs you submit.

5.5. You must not upload another person's private or sensitive material without a lawful basis and that person's permission.

6. Output and Intellectual Property

6.1. Subject to your compliance with these Terms and to the extent permitted by applicable law and by the relevant Third-Party Providers' terms, the Company assigns to you such rights as it holds in the Output you generate. You are solely responsible for your use of Output.

6.2. Due to the nature of AI, Output may not be unique, and similar or identical Output may be generated for other users.

6.3. The Company retains the right to use Output as reasonably necessary for safety, moderation, debugging, legal compliance, and to operate the Service. Any use to "improve" the Service is limited as set out in Section 6A.

6.4. **Publishing, social feed, and remix.**

(a) **Publishing is optional.** Content does not become a public post merely because you generated or edited it. You choose whether to publish, using the publication controls provided by the Service.

(b) **License you grant on publication.** When you publish content ("**Published Content**"), you grant the Company a non-exclusive, worldwide, royalty-free, sublicensable license to host, store, reproduce, display, distribute, transmit, format, transcode, resize, create technical previews and thumbnails of, and otherwise make the Published Content available through Bunsy, solely to operate, secure, promote, and improve the Service and its social features. This license ends when the Published Content is deleted from the Service, except for reasonable backup periods, retention required by law, and copies previously shared outside our control.

(c) **License to other users; remix.** You grant other users a limited, non-exclusive license to view your Published Content and, where the "remix" feature is enabled, to use it as a starting point to create their own

derivative content within the Service. When you remix another user's content, you must comply with these Terms and must not infringe the rights of the original creator or any third party.

(d) **Your responsibility.** You remain responsible for Published Content and must hold all rights necessary to publish it and to permit remixing. You must not publish content that violates these Terms, the AUP, applicable law, or third-party rights.

(e) **Operation of the feed.** We may rank, recommend, categorize, label, age-restrict, limit the distribution of, or remove Published Content as part of operating the feed, enforcing safety rules, responding to reports, or complying with law.

(f) **Redistribution by others.** Other users may view and interact with Published Content through the features we make available, and may copy or re-share it outside the Service. We cannot control copies or redistribution made outside our systems, and the Company is not responsible for how other users use content you publish.

6A. Use of Data for Model Training

6A.1. **We do not use your Inputs or Outputs to train, fine-tune, or develop AI models**, except: (a) where you have given separate, opt-in consent; or (b) for the limited, non-model-training purposes of safety, abuse-detection, moderation, and debugging described in these Terms.

6A.2. **Third-Party Providers.** Third-Party Providers process your Inputs under their own terms. Whether a given provider may use submitted content to improve its own models is governed by that provider's terms; the current providers and links to their policies are listed on our sub-processor page (see Privacy Policy). Where technically available, we select provider options and API modes that **exclude your content from provider model training**, but we cannot guarantee the practices of every provider.

6A.3. Where we offer an in-App setting to control training-related uses, you may change your choice at any time; changes are prospective only.

6B. AI-Generated Content Labeling and Provenance

6B.1. Output is AI-generated. Depending on the feature, jurisdiction, and Third-Party Provider, Output may carry visible labels, metadata, or provenance signals (e.g., C2PA content credentials or watermarks).

6B.2. You must not remove, alter, or conceal any AI-generation label, watermark, or provenance signal, and you must comply with all applicable laws requiring disclosure of synthetic or AI-generated media (including, where applicable, the EU AI Act).

---

7. Output Disclaimer / No Warranty

7.1. Output is generated by probabilistic systems and may be inaccurate, incomplete, offensive, unlawful, infringing, or otherwise unsuitable for any purpose.

7.2. Output does not constitute professional advice and must not be relied upon as accurate or factual. You must independently verify Output before use.

7.3. The Company does not warrant the realism, identity accuracy, or fitness for purpose of any Output, including avatars.

7.4. We do not warrant that any Output is free of third-party rights or suitable for any particular commercial purpose. You are responsible for reviewing Output before downloading, publishing, distributing, or using it commercially.

7.5. We do not warrant that Published Content posted by other users is accurate, lawful, or endorsed by the Company. Views expressed by users are their own.

---

8. Deepfakes, Likeness, and Identity

8.1. You must not use the Service to create deceptive impersonations of real persons; non-consensual intimate or sexual imagery; fraud, harassment, defamation, or political/electoral deception; or any unlawful "deepfake" or synthetic media.

8.2. **Attestation for real-person likeness.** You may upload an image to create an avatar, including of fictional characters, animals, or objects. **We strongly recommend uploading only your own likeness (a selfie).** If the image you upload contains the face, likeness, or voice of a real person, you must either be that person or have their explicit, documented consent. By uploading such an image you confirm that it depicts yourself, or that you have explicit consent from the individual depicted, and you accept full legal responsibility for the upload. For any real person other than yourself, you must obtain and retain documented proof of consent, which we may request at any time and which you must produce within **seven (7) days** of our request. Failure to produce it is a breach of these Terms.

8.3. You must not create avatars or Output that violate any person's rights of publicity, personality, privacy, or any applicable law.

8.4. **Liability.** Any claim arising from unauthorized use of a third party's likeness is your sole responsibility. We may immediately suspend your account, delete associated content, and report you to the competent authorities where we suspect unlawful impersonation or deepfake creation.

---

9. Prohibited Content and Conduct

9.1. You must not submit, request, generate, edit, publish, distribute, or promote content that: is illegal under UAE law or your local law; **sexually exploits, endangers, sexualizes, or depicts minors (absolutely prohibited, with no exception)**; is pornographic, NSFW, sexually explicit, sexually suggestive, fetish-oriented, or otherwise intended for sexual arousal, whether it depicts real or fictional persons; promotes or meaningfully facilitates hatred, discrimination, violence, terrorism, violent extremism, self-harm, or serious criminal conduct; is harassing, threatening, stalking, doxxing, defamatory, fraudulent, or deceptive; infringes intellectual property, privacy, publicity, likeness, or voice rights; misuses biometric data; contains malware or facilitates unauthorized access; or otherwise violates our Acceptable Use Policy.

9.2. You must not reverse engineer or attempt to extract source code or models; scrape or use automation to abuse the Service; circumvent moderation, safety systems, access controls, usage limits, rate limits, payment controls, or other security measures; abuse promotions, referrals, or introductory Token grants; or

perform prompt-injection or similar attacks. Attempts to evade moderation through coded, translated, obfuscated, indirect, or multi-step instructions are prohibited.

9.3. **Platform manipulation.** You may not buy, sell, artificially inflate, or manipulate followers, reactions, views, comments, reach, recommendations, or other engagement metrics, whether through bots, coordinated activity, multiple accounts, or other deceptive means. You may not impersonate other users, spam, or repeatedly repost content that has been removed.

9.4. **Export and sanctions compliance.** The Service may be subject to export control and economic sanctions laws (including those of the United Nations, the United Arab Emirates, and, where applicable, the United States and European Union). You represent that you are not located in, a resident of, or ordinarily present in any comprehensively sanctioned jurisdiction, and are not listed on any applicable sanctions list. You agree not to use the Service in violation of such laws, and we may block access from sanctioned jurisdictions.

9.5. **Intellectual property complaints / notice-and-takedown (DMCA and equivalents).**

(a) If you believe content on the Service infringes your intellectual property rights, send a notice to **info@quick-ai.solutions** (our designated agent for IP notices) including: (i) identification of the work claimed to be infringed; (ii) identification and location of the allegedly infringing material; (iii) your contact details; (iv) a statement of good-faith belief that the use is not authorized; (v) a statement, under penalty of perjury where applicable, that the information is accurate and that you are authorized to act; and (vi) your physical or electronic signature.

(b) We will investigate, may remove or disable access to the material, and will take reasonable steps to notify the affected user.

(c) **Counter-notice.** An affected user may submit a counter-notice to the same address with the equivalent information and a statement consenting to jurisdiction as required by applicable law. We may restore content following a valid counter-notice unless the complainant initiates legal action.

(d) **Repeat infringers.** We may terminate, in appropriate circumstances, the accounts of users who are repeat infringers.

---

10. Content Moderation, Safety, and Enforcement

There is zero tolerance for objectionable content or abusive users. Posting objectionable content — or harassing, threatening, or otherwise abusing other users — is a breach of these Terms. We remove such content and terminate the accounts responsible for it, without refund and without prior notice. By using the Service you agree to this standard.

10.1. We may (but are not obligated to) review, filter, label, restrict, block, or remove any Input or Output, and suspend or terminate access, at our discretion, including without prior notice where necessary for safety or legal compliance.

10.2. **Reporting and blocking.** The Service provides in-app tools to report objectionable content and to block other users. Blocking removes that user's content from your feed immediately and notifies us. You can also contact **info@quick-ai.solutions**. Include enough information for us to identify and assess the content or behavior.

10.3. **Action on reports.** We aim to review reports of objectionable content and, where appropriate, remove the content and/or the offending user **within 24 hours** of a valid report.

10.4. **Child sexual abuse material (CSAM).** We prohibit CSAM absolutely, use reasonable measures to detect it, remove it, preserve relevant records where legally required, terminate the responsible account, and report to the competent authorities and/or applicable reporting bodies (for example, NCMEC where applicable) as required by law.

10.5. **Statement of reasons.** Where required by applicable law (for example, the EU Digital Services Act), we will provide affected users with a statement of reasons for content removal or account action and information about available redress.

10.6. **Screening of generation requests.** Generation requests may be screened by automated safety systems — ours and those operated by the Third-Party Providers that process them — before or during generation. A request may be refused, blocked, or left uncompleted where it is flagged, cannot be safely screened, or appears to violate these Terms or the AUP. A refusal on safety or content grounds is not a technical fault attributable to the Service for the purposes of Section 12.5.

10.7. **Enforcement measures and appeals.** Depending on the severity and history of a violation, we may remove or limit content, reduce its distribution, restrict features, suspend or terminate an account, preserve evidence where legally appropriate, and take other reasonable measures to protect users, rights holders, payment partners, and the Service. Where appropriate we will notify you of an enforcement action and give you an opportunity to contest it at **info@quick-ai.solutions**. We may act immediately and without prior notice where there is a serious safety, child-safety, fraud, security, or legal risk.

---

11. Third-Party Providers and Data Location

11.1. Outputs depend on Third-Party Providers. Your Inputs (including Facial Images where applicable) may be transmitted to and processed by such providers to generate Outputs.

11.2. Third-Party Providers may process your content under their own terms and practices and may use sub-processors. Current providers are listed on our sub-processor page (see Privacy Policy).

11.3. Processing may take place outside the United Arab Emirates. By using the Service, and by providing explicit consent where required (see Privacy Policy), you authorize these transfers as necessary to perform the Service. If you do not consent to such transfers, do not use features that require third-party processing.

11.4. We are not responsible for third-party outages, model changes, latency, content refusals, or restrictions, or for independent third-party services outside our control. We remain responsible for our own obligations under applicable law in respect of providers that process data on our behalf.

---

12. Tokens, Subscriptions, and Billing

12.1. **Tokens.** Paid operations (such as submitting a generation job) consume Tokens. Certain operations may be provided without consuming Tokens. The operations that consume Tokens, and their cost, are shown in the App and may change.

12.2. **Introductory grants.** New or eligible Users may receive an introductory allocation of Tokens or trial access ("Introductory Grant"). Introductory Grants are provided at our discretion, may expire, are non-exchangeable for cash, and may be revoked in cases of abuse. Terms of any Introductory Grant are specified in the App or promotion.

12.3. **Nature of Tokens.** Tokens are internal, limited-use digital entitlements used to access paid AI generation and other eligible operations within Bunsy. They are not money, not electronic money, not cryptocurrency, and not stored value. They have no monetary value, are not redeemable or withdrawable for cash, cannot be transferred between users, and are non-refundable once spent, except as required by applicable law.

12.4. **Token validity and rollover.** Tokens credited to your account — whether purchased as a one-time Token pack or allocated through a Subscription — do not expire merely because a billing period ends or a Subscription is cancelled. Unused Tokens remain available in your account until they are spent, the account is deleted, or they are removed following a refund, payment reversal, chargeback, fraud, abuse, or another adjustment permitted by these Terms or applicable law. Introductory Grants (Section 12.2) may carry their own expiry, which is disclosed when the grant is made.

12.5. **Deduction and service-side failures.** Tokens are deducted when a generation job is submitted. If a generation **fails due to a technical fault attributable to the Service** (as opposed to a content refusal or a fault attributable to you or a Third-Party Provider), we will **restore the corresponding Tokens to your balance**. Token restoration is not a cash refund.

12.6. **Subscriptions and PAYG.** Paid access is available via auto-renewing Subscription or one-time PAYG Token purchases. A Subscription includes a stated allocation of Tokens and may include additional paid features; a PAYG pack adds Tokens to your account independently of any Subscription. Prices, Token allocations, included features, billing periods, renewal terms, and applicable taxes are shown before purchase.

12.7. **Auto-renewal and cancellation.** Subscriptions automatically renew at the end of each billing period unless you cancel before the renewal date, and your payment method is charged automatically. At the time of purchase, the App discloses the price, the billing frequency, that renewal is automatic, and how to cancel. You may cancel at any time via your App Store or Google Play account. Cancellation stops future recurring charges but takes effect at the end of the current paid period, with no refund for that period, and **does not remove Tokens already credited to your account** (Section 12.4). Subscription-only features remain available until the end of the paid billing period, as described at purchase. Where applicable law requires it, we will send a renewal reminder before charging.

12.8. **Prices.** Current prices are displayed in the App at the time of purchase. We may change prices; changes do not affect an already-paid Subscription period.

12.9. **Payment processing and app stores.**

(a) Purchases are made inside the mobile App and are processed by **Apple In-App Purchase** (on iOS) or **Google Play Billing** (on Android), with **Adapty** as our subscription-management and entitlement provider. That store's billing, cancellation, and refund rules apply to such purchases.

(b) Card and other payment credentials are handled by Apple or Google under their own terms. **We do not receive or store full payment-card numbers or card security codes.** We receive the transaction, product, Subscription, entitlement, refund, and status information needed to deliver and administer what you purchased.

(c) Where the store processes a purchase or a refund, we may be unable to process it directly, and we may revoke the Tokens or entitlements attributable to a refunded or reversed payment (see Section 13.5).

(d) **Restore purchases.** You can restore eligible previous purchases using the in-App "restore purchases" function.

(e) **Other payment channels.** If we make a web or other external checkout available in future, the payment provider and any Merchant of Record for those transactions will be identified at checkout and will handle payment processing, applicable transaction taxes, invoicing, refunds, and chargebacks under the terms presented there. These Terms continue to govern your use of Bunsy and the Tokens or Subscription benefits delivered to your account. Nothing in these Terms guarantees that a particular payment channel will be available in every jurisdiction, on every platform, or in every app version.

12.10. Prices exclude internet/data charges, which are your responsibility.

---

13. Refunds and Right of Withdrawal

13.1. **General refund terms.**

- (a) Tokens consumed by successfully submitted generation jobs are non-refundable.
- (b) Refunds for purchases made through Apple or Google are handled under that store's refund process and policies. Where a purchase is processed directly by us rather than by an app store, you may request a refund within seven (7) days of purchase if no Tokens from that purchase have been spent, by contacting **info@quick-ai.solutions** with your order details.
- (c) Once any Token from a purchase is spent, that portion of the purchase is deemed used; refunds for spent portions are not available except as required by law.
- (d) Refunds for purchases made through an app store are handled under that store's policies.
- (e) The above is subject to your mandatory statutory rights, which cannot be excluded.

13.2. **EU/EEA/UK consumers — 14-day withdrawal and immediate-performance waiver.** If you are a consumer in the EU, EEA, or UK, you have a statutory right to withdraw from a purchase of digital content within **14 days**. Because Tokens enable immediate on-demand generation, at checkout you will be asked to (i) request immediate performance and (ii) acknowledge that you thereby **lose your right of withdrawal** to the extent the digital content has been supplied (i.e., Tokens spent). Any unspent portion remains refundable within the 14-day period.

13.3. **Proportionate refunds for Subscriptions.** Spending a Token from a Subscription's periodic allocation does not, by itself, forfeit your right to a refund of the clearly unused remainder where mandatory consumer law so requires; in such cases we will refund on a reasonable pro-rata basis.

13.4. We may suspend accounts engaged in abusive chargebacks.

13.5. **Reversal of entitlements.** If a payment is refunded, reversed, or charged back, we may remove the Tokens and other entitlements attributable to that payment. Where those Tokens have already been spent, the uncovered amount is recorded as a negative entitlement (a Token debt) on your account and is set off against future Token grants; your Token balance is never negative. Tokens already consumed to perform AI generation or another paid operation are not restored or converted to cash merely because a Subscription is later cancelled. Nothing in this Section limits non-waivable consumer refund or withdrawal rights that apply in your jurisdiction.

---

14. Acceptable Use

14.1. Your use of the Service is governed by our **Acceptable Use Policy**, published at `https://bunsy.io/acceptable-use` and incorporated into these Terms. It applies to prompts, uploads, generation requests, editing activity, downloads, Published Content, profiles, comments and reactions, and every other use of Bunsy.

14.2. You must comply with fair-use and rate limits and must not abuse the Service through automation, scraping, multiple accounts, circumvention, or jailbreaks. You must also comply with the acceptable-use policies of the Third-Party Providers whose models you invoke.

---

15. Ownership of the Service

All rights in the Service — including the App, its software, user interface, design, and the "Bunsy" name and marks — belong to the Company or its licensors. These Terms grant you only a limited, revocable, non-exclusive right to use the Service for its intended purpose.

---

16. Privacy and Facial Images

16.1. Your use of the Service is subject to our Privacy Policy.

16.2. **How we handle Facial Images.** Where you upload an image containing the face of a real person to create an avatar, we store the photograph itself and transmit it to Third-Party Providers located outside the UAE, including in the United States, solely to generate the avatar and the Output you request. We do not derive faceprints, face templates, facial geometry, or embeddings from it, we do not run face recognition, and we do not use it to identify anyone; accordingly we do not collect biometric data. We store it in the European Union for as long as the avatar exists in your account (see Privacy Policy, Section 7). Every upload is one you select and submit deliberately; nothing is captured automatically, and the feature is optional. You may delete the avatar, request erasure, or delete your account at any time. Uploads that do not contain a real person's face (e.g., fictional characters, animals, or objects) are handled as ordinary Content.

---

17. Communications and Notifications

17.1. **Transactional messages.** We may send you service messages (e.g., about your account, purchases, security, generation status, or changes to these Terms) by email, in-app message, or push notification. These are part of the Service and are not marketing.

17.2. **Marketing messages and push notifications.** We send marketing communications and non-essential push notifications only where you have opted in or as otherwise permitted by law. You can opt out at any time via device settings, in-App settings, or the unsubscribe mechanism in the message.

18. Suspension and Termination

18.1. We may suspend, restrict, or terminate your access where you materially or repeatedly breach these Terms or the AUP, create legal or safety risk, abuse payments or promotions, infringe third-party rights, or where suspension is reasonably required by law or by a platform or provider — including without notice for serious violations (Section 9).

18.2. You may stop using the Service and request account deletion at any time via in-app settings or **info@quick-ai.solutions**, as described in Section 3.6.

18.3. On termination or account deletion, unused Tokens and paid periods are not refunded except where required by law. Clauses that by their nature should survive (including 5.2, 6, 6A, 6B, 7, 8.4, 12.3, 13, 15, 20, 21, 22, 23) survive termination.

19. Force Majeure

We are not liable for any failure or delay in performance due to causes beyond our reasonable control, including Third-Party Provider outages, model unavailability, acts of God, war, terrorism, sanctions, government restrictions, pandemics, telecommunications failures, or cyberattacks. During such events we may suspend or limit the Service without liability.

20. Disclaimers and Limitation of Liability

20.1. The Service and all Output are provided "as is" and "as available" to the maximum extent permitted by law. We do not warrant that the Service will be uninterrupted, error-free, or secure, or that Output will meet your expectations.

20.2. To the maximum extent permitted by applicable law, the Company is not liable for any indirect, incidental, special, consequential, or punitive damages, or for loss of data, profits, or goodwill.

20.3. To the maximum extent permitted by applicable law, the Company's total aggregate liability arising out of or relating to the Service is limited to the greater of (a) the amount you actually paid to the Company in the three (3) months preceding the event giving rise to the liability, or (b) **USD 50**.

20.4. Nothing in these Terms excludes or limits liability that cannot be excluded or limited under applicable law, including liability for death or personal injury caused by negligence, for fraud or fraudulent misrepresentation, or for a consumer's mandatory statutory rights.

20.5. We are not liable for the acts or omissions of Third-Party Providers, app stores, or payment processors.

21. Indemnity

You agree to indemnify and hold harmless the Company from any claims, damages, and expenses arising out of your Input, your use of the Service, your unlawful use of biometric data or likeness, your creation of

deepfakes, your infringement of third-party rights, or your breach of these Terms or applicable law. This indemnity does not apply to the extent a loss results from our own breach, negligence, or wilful misconduct, and, where you are a consumer, applies only to the extent permitted by applicable consumer law.

---

22. Governing Law and Dispute Resolution

22.1. These Terms are governed by the laws of the Emirate of Dubai and the applicable federal laws of the United Arab Emirates, excluding conflict-of-law rules.

22.2. The parties will first attempt good-faith negotiation for thirty (30) days. If unresolved:

- (a) for Users resident in the UAE, the onshore Dubai Courts have exclusive jurisdiction;
- (b) for Users resident outside the UAE, disputes shall be finally resolved by binding arbitration seated in Dubai, in English, by a sole arbitrator, under recognized arbitration rules;
- (c) either party may seek injunctive relief in any court of competent jurisdiction for breach of intellectual property, confidentiality, or to prevent imminent harm.

22.3. **Consumer carve-out.** Nothing in Section 22.2 deprives a consumer of the protection of mandatory provisions of the law of their country of habitual residence, or of any right such a consumer has to bring or defend proceedings in the courts of that country, where applicable law so requires. To that extent, the arbitration requirement in 22.2(b) does not apply to such consumers.

---

23. Changes; Severability; Assignment; Contact

23.1. We may modify these Terms; we will post the updated version in the Service and, where appropriate, notify you. Where changes materially reduce your rights, we will give reasonable prior notice. Continued use after changes take effect constitutes acceptance.

23.2. If any provision is held invalid, the remaining provisions remain in full force.

23.3. **Assignment.** You may not assign these Terms without our consent. We may assign them to an affiliate or in connection with a merger, acquisition, or sale of assets, on notice.

23.4. **Entire agreement.** These Terms, the Privacy Policy, and the Acceptable Use Policy are the entire agreement between you and the Company regarding the Service.
